HABIB SHAIKH

FULL STACK DEVELOPER

ABOUT ME

Well-qualified Full Stack Developer familiar with wide range of programming utilities and languages. Knowledgeable of backend and frontend development requirements. Handles any part of process with ease. Collaborative team player with excellent technical abilities offering 2 years of related experience.

## EXPERIENCE

FULL STACK DEVELOPER | ZEUS LEARNING
Mumbai, Maharashtra - July 2019 - Present

- Used **Angular, Spring MVC** and **SQL** to develop single page applications.

- Implemented **Single Sign On (SSO)** feature using **OAUTH 2.0/OAUTH 1.0**

- Created **Class diagrams**, **ER diagrams**, **Gantt charts**, Task Distribution, Jira Board Management and **Git Branching Plan** for new maven modules.

- Used **ActiveMQ** for managing the large queues of data.

- Simplified a decentralized code structure into a manageable **centralized** structure.

- Created an **E-Commerce like filter** for filtering the huge amount of data.

- Designed and implemented a **reusable pagination component** with complex logic to fetch sorted and filtered data efficiently.

- Implemented customer onboarding process by using 3rd party library like **Bootstrap tour** with backend **state management**.

- Created a **custom n-level tree component** that is used widely throughout the app.

- Implemented **localization** functionality by parsing YAML files and added back-end logic to support multiple languages.

- Conducted **unit testing** to deliver optimal browser functionality.

- Participated in complete software development lifecycle, including performance analysis, design, development, and testing.

- Reviewed code, debugged problems, and corrected issues.

- Contributed ideas and suggestions in team meetings and delivered updates on deadlines, designs and enhancements.

UNITY DEVELOPER INTERN | COMXR
Mumbai, Maharashtra - July 2018 - August 2018

- Implemented a VR chatbot in unity that used **IBM Watson services** like Speech to text, Text to speech and Watson Conversation service APIs.

- Created A lobby system with voice chat functionalities, it used Unity's server for communication services and worked on **unity networking**.

- Quickly learned new skills and applied them to daily tasks, improving efficiency and productivity.

SKILLS

Java · Angular · Spring · SQL · JS · TS · HTML · React · Python · LESS · CSS · C++ · C# · JSP · MongoDB · JUnit · Karma

SOFTWARES & TECHNOLOGIES

Eclipse · ActiveMQ · GIT · Maven · Postman · Jira · Tomcat · IntelliJ · Docker · Jenkins · VS Code · SSO · Unity 3D · Microservices · OAuth 2.0 · SAML · Microsoft Teams · Slack

CERTIFICATIONS

- **Data Mining**
  Grade: Elite | Score: 75/100
- **Data Structures and Algorithms using Python.**
  Grade: Elite | Score: 71/100
- **Data Science for Engineers**
  Grade: Elite | Score: 73/100

EDUCATION

2015 – 2019 | V.I.T | B.E. in IT
CGPA: 8.8
Final Year Project: Paper Published on IJCA
